

Copeland scroll compressors

BOM Overview

1	Scroll nomenclature.....	2
2	BOM number.....	3
3	BOM per scroll compressor family.....	4
3.1	Service compressors.....	4
3.2	ZR / ZRD compressors.....	5
3.3	ZP / ZPD compressors.....	7
3.4	YP / YPV compressors.....	9
3.5	ZRH(V) / ZBH(V) / YRH(V) and YBVH horizontal compressors.....	11
3.6	ZH(I) compressors.....	12
3.7	YH(V) compressors.....	13
3.8	ZS and ZB(D) compressors.....	14
3.9	YB(D) and YBV(H) compressors.....	15
3.10	ZF(D) compressors.....	16
3.11	YF, YFI and YFJ compressors.....	17
3.12	ZO(D) / ZT / ZL compressors.....	18

1 Scroll nomenclature

The scroll nomenclature, as given on the nameplate of the compressor, contains information such as compressor model family, application, capacity and other specifications. The BOM (Bill of Material) indication is part of the nomenclature. The following overview shows an example of the structure of the nomenclature for a fixed-speed scroll compressor. Some other scroll families, for example the variable-speed models, may use different nomenclature details. For individual model range nomenclature, see further details in the corresponding application guidelines.

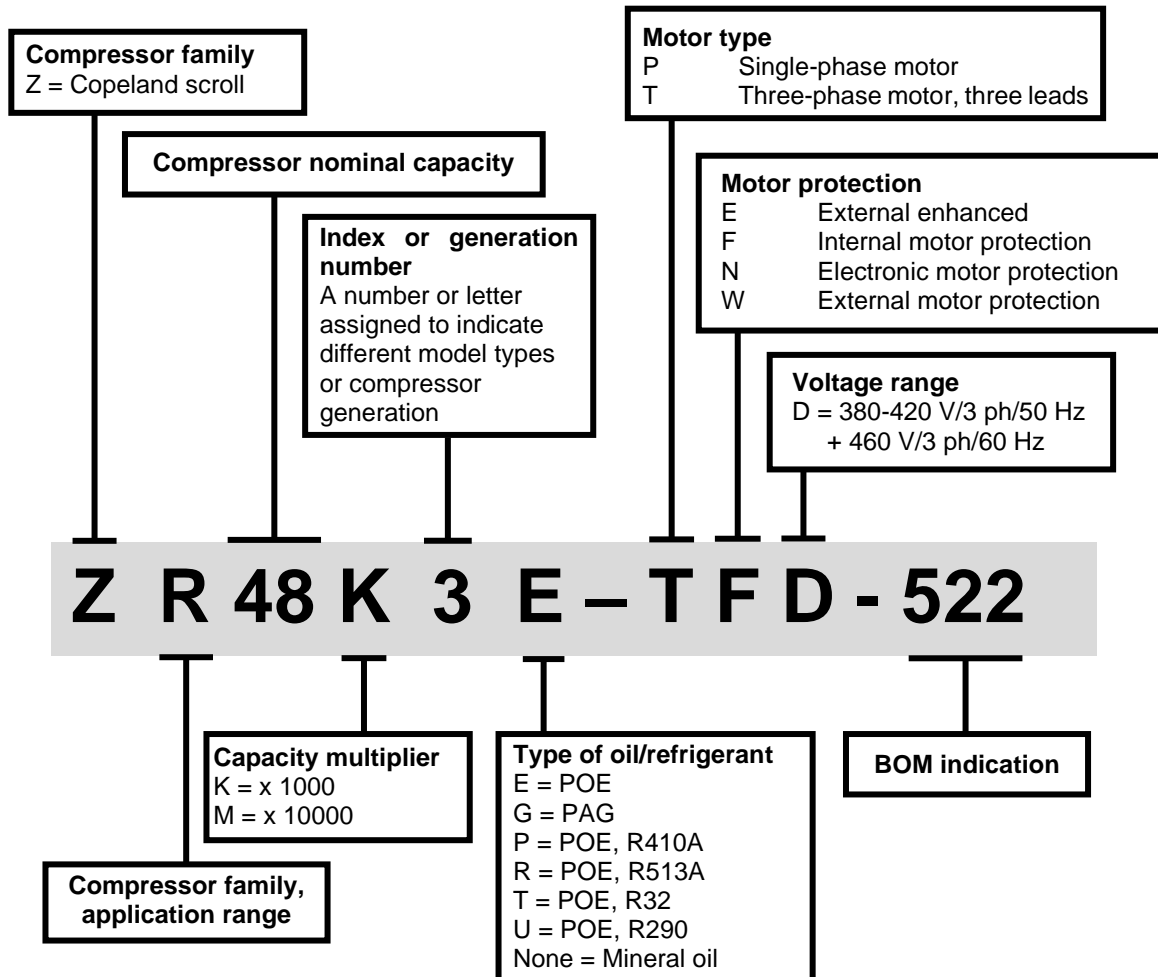

Figure 1: Example of nomenclature for a standard scroll compressor, ZR range

2 BOM number

The BOM (Bill of Material) indication contains three digits, either numbers or letters, and can be found at the end of the scroll compressor nomenclature. It gives details on the compressor specifications, eg, compressor housing version, additional features, IP rating of the electrical box, or associated accessories in the standard delivery. Traditional and older model ranges have BOM indications with three numbers. More recent scroll families have an alphanumeric BOM representation.

European standard BOM

A list of the most common European standard BOM indications can be found in the overview tables hereafter. For more details about BOM versions, compressor standard delivery and possible accessories, please refer to the Copeland price list.

European special BOM (OEM)

Some special BOM indications were created for specific OEM customer projects and/or compressor variations. In some instances the special BOM and the compressor specifications are identified as confidential and cannot be made public. For more information, please contact your local Application Engineering representative at Copeland.

Worldwide standard and special BOM

Other sales regions such as the USA, Asia etc... have their own BOM specifications, which can be totally different from the European designation. Special OEM BOM indications can be confidential as well. For more information and possible transcode to European BOM equivalence, please contact your local Application Engineering representative at Copeland.

BOM explanation example:

ZR144 KCE TFD 455

BOM 455:

- compressor with brazing stub tubes
- including oil sight glass
- including Schraeder oil service valve
- electronic box, IP21 rating
- internal motor protection
- without mounting parts

3 BOM per scroll compressor family

3.1 Service compressors

BOM	Compressor models	Compressor connections		Oil sight glass	Electrical box IP rating	Motor protection			Mounting parts		Previous BOM
		Brazing	Rotalock			Internal	External module 120-240 V	External module 24 VAC	Single operation	Parallel operation	
930	ZR22/28/34/40/48K3E	X			IP21	X			X		522
950	ZR61/72/81KCE	X			IP21	X			X		522

591	ZB48-57	KCE		X	X	IP54		X			X		
951	ZB50-114	KCE TF		X	X	IP21		X			X	X	Service version (replaces BOM 551)
551	ZB50-114	KCE TF		X	X	IP21		X			X		Incl. internal discharge temp. protection ASTP
651	ZB50-114	KCE		X	X		IP66	X			X		Molded plug
551	ZB95-114	KCE TW		X	X	IP54			X		X		Obsolete
567	ZB66-114	K5E		X	X	IP54		X					Incl. discharge thermostat
951	ZB56-11	KCE MCE		X	X	IP54			X		X		Service version (replaces ZB/ZS BOM 551)
551	ZB56-11	KCE MCE		X	X	IP54			X		X		Obsolete
551	ZS56-11	K4E M4E		X	X	IP54			X		X		Obsolete
523	ZB220	KCE		X	X	IP54			X				
548	ZB07-14	KAU	X			IP11		X			X		OEM version 3-foot housing design
634	ZB07-14	KAU	X			IP65		X			X		OEM version Molded plug 3-foot housing design
524	ZB12-49	KCU	X			IP65		X			X		T-box Atex
424	ZB12-49	KCU	X			IP65		X					T-box Atex
534	ZB12-49	KCU	X			IP54		X			X		Single compressor
434	ZB12-49	KCU	X			IP54		X					Tandem-ready
551	ZBD21-29	KCE		X	X	IP21		X			X		Digital model Incl. discharge thermostat
551	ZBD30-45	KCE		X	X	IP21		X			X		Digital model
591	ZBD57	KCE		X	X	IP54		X			X		Digital model
551	ZBD58-76	KCE		X	X	IP54		X			X		Obsolete Digital model Incl. discharge thermostat
567	ZBD76-114	K5E		X	X	IP54		X			X		Digital model Incl. discharge thermostat

Table 8: ZS and ZB(D) compressor models

3.9 YB(D) and YBV(H) compressors

BOM	Compressor models		Compressor connections		Oil sight glass	Electrical box IP rating	Molded plug connection IP rating	Motor protection			Mounting parts		Other special features	
			Brazing	Rotalock				Internal	External module 120-240 V	External module 24 VAC	Single operation	Parallel operation		
GBS	YB12-36	K1E	X			IP54		X						
GCG	YB12-36	K1E	X			IP54		X					Extra brazing connection for paralleling	
9J3	YB56-97	K1G	X			IP65		X			X		Extra brazing connection for paralleling + end caps Service version, (replaces JCD, JCY, JCE, JCZ BOM)	
GCZ	YB56-97	K1G	X			IP54		X			X			
GCY	YB56-97	K1G	X			IP54		X			X		Extra brazing connection for paralleling	
JCE	YB56-97	K1G	X			IP65		X			X			
JCD	YB56-97	K1G	X			IP65		X			X		Extra brazing connection for paralleling	
XBS	YBD17-36	K1E	X			IP54		X					Digital model	
XCG	YBD17-36	K1E	X			IP54		X					Digital model Extra brazing connection for paralleling	
ABK	YBV021-046	1U	X			IP54			External - depending on motor type (E = protection with drive, X = not protected)				Variable speed	
ABC	YBV021-046	1U	X		X	IP54								Variable speed
NBE	YBVH021-046	1U	X			IP65								Variable speed, Horizontal El. connection ready for molded plug (IP65)

Table 9: YB(D) and YBV(H) compressor models

3.10 ZF(D) compressors

BOM	Compressor models		Compressor connections		Oil sight glass	Electrical box IP rating	Molded plug connection IP rating	Motor protection			Mounting parts		Other special features
			Brazing	Rotalock				Internal	External module 120-240 V	External module 24 VAC	Single operation	Parallel operation	
551	ZF06-18	K4E		X	X	IP21		X			X		Connection for liquid injection Incl. discharge thermost
556	ZF06-18	K4E		X	X	IP21		X			X		Connection for liquid injection, incl. DTC valve Incl. discharge thermost
550	ZF06-18	K4E	X		X	IP21		X			X		OEM version Connection for liquid injection Incl. discharge thermost
265	ZF06-18	K4E		X	X	IP21		X			X		US version Connection for liquid injection
555	ZF06-18	K4E	X		X	IP21		X			X		US version Connection for liquid injection, incl. DTC valve
551	ZF13-18	KVE		X	X	IP21		X			X		Connection for vapour injection Incl. discharge thermost
550	ZF13-18	KVE	X		X	IP21		X			X		OEM version Connection for vapour injection Incl. discharge thermost
567	ZF25-54	K5E		X	X	IP54		X			X		Connection for liquid or vapour injection Incl. discharge thermost
951	ZF24-48	K4E		X	X	IP54			X		X		Service version (replaces BOM 551)
551	ZF24-48	K4E		X	X	IP54			X		X		Connection for liquid injection (obsolete)
951	ZF24-48	KVE		X	X	IP54			X		X		Service version (replaces BOM 551)
551	ZF24-48	KVE		X	X	IP54			X		X		Connection for vapour injection (obsolete)
551	ZFD13-18	KVE		X	X	IP21		X			X		Digital model Connection for vapour injection Incl. discharge thermost
552	ZFD13-18	KVE		X	X	IP21		X			X		Digital model, US version Connection for vapour injection braze
591	ZFD25	KVE		X	X	IP54		X			X		Digital model Connection for vapour injection Incl. discharge thermost
567	ZFD41	K5E		X	X	IP54		X			X		Digital model Connection for liquid or vapour injection Incl. discharge thermost

Table 10: ZF(D) compressor models

3.11 YF, YFI and YFJ compressors

BOM	Compressor models		Compressor connections		Oil sight glass	Electrical box IP rating	Molded plug connection IP rating	Motor protection			Mounting parts		Other special features
			Brazing	Rotalock				Internal	External module 120-240 V	External module 24 VAC	Single operation	Parallel operation	
GDV	YF05-15 YF19	K1E K5E	X			IP54		X					Single compressor DTC valve Brazing injection port for liquid injection
GDW	YF05-15 YF19	K1E K5E	X			IP54		X					Extra tube for paralleling DTC valve Brazing injection port for liquid injection
GDY	YF05-15 YF19	K1E K5E	X			IP54		X					Single compressor Brazing injection port for liquid injection
GDZ	YF05-15 YF19	K1E K5E	X			IP54		X					Extra tube for paralleling Brazing injection port for liquid injection
GFA	YFI10-19	K1E	X			IP54		X					Single compressor Brazing injection port for vapour injection
GFC	YFI10-19	K1E	X			IP54		X					Extra tube for paralleling Brazing injection port for vapour injection
GFB	YFJ10-19	K1E	X			IP54		X					Single compressor Digital/brazing injection port for vapour injection
GFD	YFJ10-19	K1E	X			IP54		X					Extra tube for paralleling Digital/brazing injection port for vapour injection

Table 11: YF, YFI and YFJ compressor models

3.12 ZO(D) / ZT / ZL compressors

BOM	Compressor models		Compressor connections		Oil sight glass	Electrical box IP rating	Molded plug connection IP rating	Motor protection		Mounting parts		Other special features
			Brazing	Rotalock				Internal	External	Single operation	Parallel operation	
297	ZT116-36	AG			X	IP54		X				Low leak check-valve
297	ZL16-36	AG			X	IP54		X				Low leak check-valve
592	ZO18-46	AG		X	X	IP54		X				Schraeder valve
592	ZOV18-38	AG		X	X	IP54						Schraeder valve
551	ZO21	K5E		X	X	IP21		X		X		Incl. discharge thermostat
269	ZO21	K5E		X	X	IP21		X		X		US version
551	ZO34-58	K3E		X	X	IP21		X		X		Incl. discharge thermostat
269	ZO34-58	K3E		X	X	IP21		X		X		US version
551	ZO88-104	KCE		X	X	IP21		X		X		Incl. discharge thermostat
269	ZO88-104	KCE		X	X	IP21		X		X		US version
551	ZOD34	K3E		X	X	IP21		X		X		Digital model Incl. discharge thermostat
269	ZOD34	K3E		X	X	IP21		X		X		Digital model US version
522	ZOD104	KCE		X	X	IP21		X		X		Digital model Incl. discharge thermostat
269	ZOD104	KCE		X	X	IP21		X		X		Digital model US version
